Revnix, fmr. Revnix Technologies, Haripur, KPK

Frontend Developer — OCTOBER 2025 – PRESENT

Frontend Intern — APRIL 2025 – SEPTEMBER 2025

Working on production-grade client applications using React, Next.js, and Typescript, delivering scalable and maintainable frontend solutions. Develop and optimize reusable UI components, integrate REST APIs, and enhance application performance, responsiveness, and SEO. Collaborate within a multi-developer environment using Git-based workflows, contributing to clean, efficient, and production-ready codebases.

Live Projects:

- Contributed feature updates and UI components for production websites including **21st Century Equipment**, **The Backyard**, **4Rivers Equipment**, **CodexSpot**, and **JSON to TOON**.
- Built responsive layouts, integrated APIs, and developed reusable frontend components.
- Improved consistency, responsiveness, and overall user experience.

Independent Projects:

Role & Permission Based CRUD App — Next.js, React, Typescript, MongoDB

Built a full-stack RBAC system with authentication and CRUD operations.

Figma Design to Web — HTML, CSS, JavaScript

Converted a Figma design into a responsive, pixel-accurate website.
